

NEW Ankeny High School **Ankeny Community Schools**

The Ankeny Community School District studied neighboring states to look at grade level models in districts experiencing rapid growth. The concept of K-5 elementary schools, a Middle School of grades 6-7, an upper grade level Middle School for grades 8-9, and a High School for grades 10-12 was chosen. Ankeny was a leader in the State of Iowa for this grade configuration. As Ankeny continues to grow the debate for two high schools ensued. The first High School pictured above will be built just north of Des Moines Area Community College in the new Prairie Trail Development.

This facility, along with a new 8-9 Building will be completed on this site for the 2011-2012 school year. CSI is proud to join the Ankeny School District as their construction partner on this exciting new project.

Project Details:

- Final Cost: \$43,903,660
- Project: 285,000 square feet
- Project Delivery: General Contractor
- Use: New High School 10-12
- Timeline: 11/2008-7/2011
- Schedule: Project Certificate of Occupancy 7/1/2011
- Project Manager On Site: Jeremy Lux, John Marburg, Dylan Martinez
- Project Executive: Steve Bennett
- Project Architect: Tom Penny, DLR 402-393-4100
- Owner Contact: Dr. Matt Wendt, Supt. 515-965-9600
