

## **Carlisle Early Childhood Center**

### **Carlisle Community Schools**

The Carlisle Community School District joined with Construction Services, Inc. to address space needs for all-day kindergarten beginning in the fall of 2005. The Team also addressed issues in aging athletic facilities in the football / soccer stadium and gymnasium.

The Early Childhood Center project was completed in 12 months as an addition to the current elementary school. The building contains 10 classrooms, multi-purpose room, and office area. The connecting wing allows for a courtyard area and additional light to the new classrooms. Each classroom has a self-contained restroom and shared technology area with the neighboring classroom. Skylights and brightly colored walls invite young learners into a quality environment.

#### **Project Details:**

- |                      |  |              |
|----------------------|--|--------------|
| • Final Cost:        | \$2.8 Million                                  |              |
| • Project Delivery:  | Construction Management                        |              |
| • Project:           | 23,000 square foot elementary addition         |              |
|                      | New Multipurpose Gym                           |              |
| • Use:               | All-Day Kindergarten Addition                  |              |
