

Papillion-LaVista High School Phase 2 **Papillion, Nebraska**

The renovation and addition of the Papillion La Vista High school is a \$12M project consisting of four additions totaling 29,500 SF and remodel of 225,500 SF. All work will occur during school or over summer breaks with no shut-down for construction. Work will include new mechanical and electrical systems, a new fire sprinkler system and finish updates through-out the school. The project will also involve removal of the existing football field and installation of a new artificial turf field. This project is just getting underway and scheduled to be complete August 2009.
