

Schuyler Elementary School And High School Addition Schuyler, Nebraska

CSI was selected to provide pre-bond, pre-construction, and construction phase CM services for the construction of a new 57,293 SF elementary school building and the addition of eight new classrooms to the high school. The bond issue passed on October 09, 2007 and design is scheduled for completion in January 2009. CSI assisted and provided consulting services to the District and Community Committee in the bond referendum campaign. Schuyler Schools had not been successful in the previous four attempts.

Tilt-up concrete walls and a pre-engineered structure are incorporated into the design to reach a \$95.00 / SF budget.

Project Details:

- Project Budget: \$6,600,000
- Project: High School Addition / New Elementary School
- Project Delivery: CM
- Use: High School / Elementary School
- Timeline: Design Start Oct. 07 / Construction Start Feb. 08
- Schedule: Project completed on schedule
- Superintendent: Ryan Hamilton
- Project Manager: Dave Egr
- Project Executive: Dan Biere
- Project Architect: Joe Hewgley, Joseph R. Hewgley & Associates
308-534-4983
- Owner Contact: Robin R. Stevens, Superintendent
