

## **Omaha Westside High School Athletic Facility Phase 2** **8701 Pacific Street – Omaha, Nebraska**

The Omaha Westside School District, along with the Westside Foundation, identified a need for new facilities on the Omaha Westside High School campus. The baseball / multi-use field and tennis court areas were determined as a priority for renovation and fund raising.

This project began with demolition of the existing field and courts in mid-August 2006. A new synthetic turf baseball field, support facilities, press box, concessions and six new tennis courts were constructed on the existing site. The project was substantially completed in November 2006 with weather sensitive activities finalized in the Spring Of 2007.

### **Project Details:**

- Project Cost: \$2,100,000
- Project: Turf Baseball Field / Tennis Courts
- Use: High School Athletics / Activities
